

United States Senate,

COMMITTEE ON
PUBLIC BUILDINGS AND GROUNDS.

November 23, 1906.

Mr. Elliott Woods,
Superintendent of the Capitol,
Washington, D.C.

My dear Sir:-

I am a great friend of nature and of the wild animals, and I do hope you will put up some additional boxes for our dear little squirrels in the grounds. Down towards the Peace Monument I have a number of friends of the squirrel family that come to get nuts from me every day when I go down, especially last spring when they would come at my whistle. There is only one box down there in any of those trees. Unless there are some hollow trees it would be very hard on them when bad weather comes.

Wont you look after it?

Very truly yours,

N. B. Scott
